SUMMARY

Software Development Engineer with **3 years of professional experience** building **scalable SaaS** and **enterprise** software, **AI-powered** products, and **production** systems. Experienced in designing **modern frontend architectures** using **React.js**, **Next.js**, **TypeScript**, **Redux**, **Tailwind CSS**, and **Node.js**, while collaborating with cross-functional teams to deliver high-quality software.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux, Tailwind CSS

Backend: Node.js, Express.js, MySQL, MongoDB

Tools: Git, GitHub, Jira, Postman, Docker

Deployment and Version Control: Vercel, CI/CD

Programming Language: JavaScript (ES6+), C++

Others: Performance Optimization, Payment Gateway, OAuth, Role Based Access Control (RBAC)

PERSONAL PROJECTS

Snappy UI - Component Library | [Live](#) , [GitHub](#)

Next JS, React JS, Tailwind CSS, Motion, Shadcn / UI

- Developed Snappy UI, a developer-focused UI library with **20+** production-ready React components, **installable via CLI** using **Shadcn UI** registry integration.
- Built a **component distribution system** enabling developers to install **UI blocks** directly into Next.js projects using a single **CLI command**.

AI Resume Reviewer | [Live](#), [GitHub](#)

React.js, React Router, Puter.js, Tailwind CSS, Zustand

- Built an AI-powered resume analysis tool with **authentication** and **file upload** using Puter.js; implemented **ATS-style scoring**, **resume-JD comparison**, and **improvement suggestions** using AI models.
- Integrated **REST APIs** and **AI models** to deliver **real-time resume analysis**, **personalized recommendations**, and a **responsive user experience** using **React.js**, **Tailwind CSS**, and **Zustand**.

EDUCATION

Bachelor of Engineering (B.E.) in Computer

D. Y. Patil College of Engineering, Akurdi, Pune

2018 – 2022

Pune, India

GPA: 8.76/10

WORK EXPERIENCE

Software Development Engineer(SDE) 1

Nexly Pvt. Ltd.

Live Link: [ResumeBanao](#) , [ArchitechIQ](#) , [Vidyaarena](#)

Stack: Next.js, React.js, TypeScript, Tailwind CSS, Jest, Node.js

January 2026 – June 2026

Remote

- Built **ArchitechIQ**, an **AI-assisted System Design** platform with an interactive **design canvas**, live **AI interview scenarios**, and **automated performance scorecards** to evaluate candidate solutions.
- Developed **Vidyaarena**, a full-stack education platform with **Google OAuth**, **Role-Based Access Control (RBAC)**, email notifications, and a digital content management system serving students from **Classes 6–12**.
- Engineered an AI-powered Resume Builder SaaS featuring **secure authentication**, **REST API** integration, **ATS resume analysis**, **Razorpay payment integration**, and **AI-driven resume enhancement**.
- Participated in Git-based **CI/CD deployment pipelines**, enabling **reliable production releases** and **faster delivery** cycles.

Application Developer

IBM India Pvt. Ltd.

March 2023 - August 2025

Gujarat, India

- Built and delivered **15+ production-ready frontend features** using **React.js**, **Next.js**, **Tailwind CSS**, **Redux**, and **Git**, collaborating with cross-functional teams to deliver high-quality releases while working in an **Agile/Scrum** environment.
- Developed 20+ reusable UI components**, reducing duplicate code by **40%** and accelerating feature development across multiple modules.
- Optimized frontend **performance** through **lazy loading**, **code splitting**, and **component memoization**, improving page load time by **35%**.

KEY ACHIEVEMENTS

- Shipped **3 production SaaS products** (ResumeBanao, ArchitechIQ and Vidyaarena)
- Developed **20+ reusable React UI components** powering a CLI-based component library.
- Owned end-to-end **system architecture** for a live SaaS platform
